Get Free Executive Skills In Children And **Types of Executive Function Skills**

Executive function is a set of mental skills that include working memory, flexible thinking, and self-control. We use these skills every day to learn, work, and manage daily life.

Trouble with executive function can make it hard to focus, follow directions, and handle emotions, among other things.

Executive Skills In
Children And
Executive Function
skills are self-
management skills that
help students (and
adults) achieve goals.
In order to be effective,
students must be able
to manage their
emotions, focus
attention, organize and
plan their work and
time, and reflect upon
and revise their tactics
as circumstances
change.
