Global Video Cdn Market 2014

A content delivery network or content distribution network (CDN) is a geographically distributed network of proxy servers and their data centers. The goal is to provide high availability and high performance by distributing the service spatially relative to end-users. CDNs came into existence in the late 1990s as a means for alleviating the performance bottlenecks of the Internet , even as the ...

Content delivery network - Wikipedia

A mobile content delivery network or mobile content distribution network (Mobile CDN) is a network of servers - systems, computers or devices - that cooperate transparently to optimize the delivery of content to end users on any type of wireless or mobile network.
