Hand And Rod Puppets A

A hand-rod puppet, a style developed by Jim Henson, is a puppet which is controlled by both hands. The puppeteer's dominant hand goes into the head of the puppet, operating the mouth, and at times, facial features. The puppeteer's less dominant hand controls the "arm rods", thin rods connected to the puppet's hand or arms. Arm rods tend to be painted black, and have wooden dowels connected at ...

Hand puppet - Wikipedia

The basic rod puppet is a figure operated by a rod to the head and rods to the hands. A popular variant is a figure whose head is operated by the hand, more like a glove puppet, and whose arms are managed with rods. Jim Henson with his Muppets employed this technique.

Hand And Rod Puppets; A Handbook Of Technique by ...

A hand puppet is a type of puppet that is controlled by the hand or hands that occupies the interior of the puppet. Glove puppets are a variation of hand puppets. Rod puppets require one of the puppeteer's hands inside the puppet glove holding a rod which controls the head, and the puppet's body then hangs over most or all of the forearm of the puppeteer, and possibly extends further.

Use the following techniques in handling the rod arm: Work across the body of the puppet. Work the right hand of the puppet with the left hand of the puppeteer. Use the rod only when the puppet has a specific action. The puppeteer may need to release the rod to do something backstage.

Amazon.com: Hand Puppets: Toys & Games

Rod Hand (Kermit): These are more common as Muppets, since they also only require one operator, but are large enough to accommodate a human hand inside the head. The hands are also independently controlled with rods down below the Muppet. I chose this style as it seemed the most expressive while still at a modest size.
