By Dr. Mercola. Mounting research now suggests that sitting in and of itself is an independent risk factor for poor health and premature death—even if you exercise regularly. Dr. Joan Vernikos, former director of NASA's Life Sciences Division and author of Sitting Kills, Moving Heals, presents a simple yet powerful scientific explanation...

Sitting Kills - Moving Heals! - SlideShare

Sitting Kills, Moving Heals is the title of a book by exercise physiologist Dr. Joan Vernikos. Her argument—one that has been confirmed by other scientists in a new field called "inactivity physiology" is not that sitting is necessarily bad for us; just that we spend far too much time doing it. The real problem is inactivity.
