Website design, mobile app and software application development in Guernsey. Content management systems, electronic direct mail, ... Submarine will remain operational during the current extraordinary circumstances affecting Guernsey and the rest of the world.

Submarine design and development (Book, 1984) [WorldCat.org]

Designs for a battery- and diesel-propelled submarine emerged in the years following the Civil War. In 1867, an important step was made with the successful launch of the world's first steam-powered submarine, the Ictineo II, created by Spain's Narcis Monturiol [source: Holian]. This development is notable because nuclear submarines are essentially steam-powered.

Submarine design and development (Book, 1984) [WorldCat.org]

Tool development to improve the submarine design process It is well-known that the design of new naval platforms is a complex and time consuming task. To improve and simplify the submarine design process, Nevesbu continually develops its working processes and tools.

Submarine Design And Development by Norman Friedman

Nuclear submarine design resources at the shipyards, their suppliers, and the Navy may erode for lack of demand. Analysis of alternative workforce and workload management options suggests that the U.S. Navy should stretch out the design of the next submarine class and start it early or sustain design resources above the current demand, so that the next class may be designed on time, on budget ...

Submarine Design & Engineering Course

The first submarine design was drafted by William Borne but never got past the drawing stage. Borne's submarine design was based on ballast tanks which could be filled to submerge and evacuated to surface - these same principles are in use by today's submarines.

Submarine Guernsey website design and application development

Designs for underwater boats or submarines date back to the 1500s and ideas for underwater travel date back even further. However, it was not until the 19th century that the first useful submarines began to appear. During the Civil War, the Confederates built the H.L. Hunley, the submarine that sank a Union ship.
