THE LUNAR MEN. The Friends who made the Future 1730-1810 ...

Led by Erasmus Darwin they joined a small band of allies, formed the Lunar Society of Birmingham (so called because it met at each full moon) and kick-started the Industrial Revolution.

Read Online The Lunar Men The Inventors Of The Modern World 1730 1810

Blending science, art, and commerce, the Lunar Men built canals, launched balloons, named plants, gases and minerals, changed the face of England and the china in its drawing rooms, and plotted to revolutionise its soul.

The Lunar Men: The Inventors of the Modern World 1730-1810 ...

The Lunar Society was made up of a lot of individuals and it would have been easy for their lives to jumble together in a single biography of the whole group but Uglow's great skill as a biographer and talent for hunting out an epic range of quotable materials means that the individual characters are thoroughly explored while the ties that bind ...

I don't know that I should be, as there are a lot of talented people in the invention and innovation community. Sometimes you just get lucky or you team with the right people. I honestly believe that the other members of the Lunar Men (Gary, Marc, and Robert) deserve to be Everyday Edisons. They are talented inventors and good friends.

The Lunar Men by Jenny Uglow | Waterstones

1730-1810 ...

There is much to enjoy about Jenny Uglow's "The Lunar Men". Here, we have the tale of a group of men, known to each other, who truly helped shape the modern world. The names are a "whose who" of early Industrial Age science and industry: James Watt, Erasmus Darwin (yes, the grandfather to Charles), Josiah Wedgwood and Joseph Priestley amongst others.
